## BACKEND DEVELOPER

+923074465494    mumairtufail786@gmail.com    www.linkedin.com/in/umair-laravel-dev    Lahore, PK

### Area of Expertise

Backend Development

Data Analytics

Deployment

Speech Recognition

UI/UX design

Spatial Reasoning

Database

Schema Design

Chatbot

### Work Experience

Tecjaunt (Hybrid)

November 2023 - Continued

Construction App

Developed backend for a SaaS construction app using Laravel and FastAPI, enabling construction workers to report task progress via a chatbot. Integrated speak recognition with OpenAI's Whisper API and deployed the app on Amazon EC2.

LAR Flight Booking

Developed a Flight Booking Management System using Laravel, integrating Amadeus flight third-party APIs for seamless booking and management of flights..

E-Commerce

Developed a dynamic e-commerce website backend using Laravel, featuring a robust system for managing different roles and permissions. Implemented functionality for multiple stores to manage users with varying roles and permissions. Ensured seamless operation of dynamic e-commerce features across the platform.

Employee Management System

Developed an Employee Management System (EMS) with feedback functionality, dynamic role and permission management, normalized tables for optimized queries, and Gmail SMTP integration for sending announcements to employees. Deployed the system on hPanel.

Vebtual Limited (Hybrid)

May 2023 - September 2023

Duniya Digital

Developed Duniya Digital, your go-to blogging destination. Experience seamless reading on any device—desktops, tablets, or smartphones. Dive into a world of diverse content with our responsive design, making your blogging journey enjoyable and accessible anywhere.

Blue Sky CRM

Developed Blue Sky CRM on Laravel, revolutionizing client management with an intuitive interface. Implemented a dynamic inventory system for efficient product management and streamlined client-specific purchases for construction projects. Explore the live project at BlueSkyTie.com.
